#### MISSION

*Plugged Art Collective* is comprised of multi-media artists who are as diverse as their artwork. Based in the heart of the U.S south, *Plugged* understands the need to reach out to other artists and the importance of a creative community. Our mission as a group is to bring artists together, provide communities with humorous, thought-provoking, boundary-crossing artwork, and above all make contemporary artwork accessible and significant.

Formed in 2004, *Plugged* has organized various events ranging from international video festivals, performance & installation festivals, traveling screenings to artist panel discussions. *Plugged* is proud to keep each event free for artists to submit work and free for the public to attend.
